VUE PAR LES
CARICATURISTES
MAROCAINS

EDITORIAL

We have all had a very difficult year 2020. The Covid-19 pandemic appeared out of nowhere and no one was spared. Compulsory sanitary confinement, factories closed, jobs lost, the entire economy has been hit hard by the crisis. And the damage is considerable at all levels. Culture has not been outdone in this difficult situation. Cartoonists were also heavily impacted by this tragic year, but they are also excellent witnesses of this period and can summarize its contours for us. It is in this perspective that our association launched this activity which we have titled: «2020, seen by Moroccan cartoonists» It is a call to all Moroccan cartoonists to bear witness to their vision and to share how they experienced the year 2020. I am happy, as President of the Moroccan Caricature Association, to present to you the result of this great initiative which will allow you to see how much the gaze of artists in general, and cartoonists in particular, is a bowl of artistic oxygen. to heal our uncertainties and fears in the face of this extraordinary pandemic. Keep your masks on but do not prevent your eyes from seeing and exploring this artistic journey in the virtual gallery that we present to you here. We would like to thank all the Moroccan artists who kindly took part in this original artistic adventure. Enjoy your visit to our virtual gallery
